Students Satisfaction with Teaching 2022 Semester 1

Faculty/Course	In terms of curriculum implementation and educational management.					In terms of academic advisor system.						Overall average score	Percentage of respondents to the evaluation
	The modernity and diversity of subjects in the curriculum.	Introduction to the registration system and educational management information retrieval.	Teaching and learning management process emphasizing student development and 21st-century learning skills	Various activities to enhance student development both inside and outside the classroom.	Average assessment score for curriculum implementation and educational management.	Channels/convenience for contacting academic advisors.	Students receive guidance on course registration and curriculum planning from their academic advisors. Academic advisors have sufficient time to provide consultation.	Academic advisor Sufficient time for consultation	Academic advisors show interest in and follow up on students' academic progress to help them graduate on time according to the curriculum.	Academic advisors provide additional assistance, share other experiences with students, listen to their feedback, and help solve various problems.	Average assessment score for the academic advisor system.

Faculty/Course	In terms of admission and readiness preparation for students.					In terms of curriculum implementation and educational management.					In terms of academic advisor system.					In terms of learning support.					In terms of student complaints management					Overall average score	Percentage of respondents in the evaluation				
	The criteria for student qualifications are consistent with the curriculum.	The admission criteria are clear and appropriate.	The selection process and methods for choosing students are appropriate, transparent, and fair.	Activities or processes are organized to prepare students before they begin their studies.	The average score of the assessment in terms of admission and readiness preparation for students.	The modernity and diversity of subjects in the curriculum.	Introduction to the registration system and educational management information retrieval.	Teaching and learning management process emphasizing student development and the variety of learning skills.	Various activities to enhance student development both inside and outside the classroom.	Average assessment score for curriculum implementation and educational management.	Character/convenience for contacting academic advisors.	Students receive guidance on course registration and curriculum planning from their academic advisors. Academic advisors have sufficient time to provide consultation.	Academic advisors/Sufficient time for consultation	Academic advisors show interest in and follow up on students' academic progress to help them graduate on time according to the curriculum.	Academic advisors provide additional assistance, share their experiences with students, listen to their feedback, and help solve various problems.	Average assessment score for the academic advisor system.	Learning resources such as equipment, information technology, libraries, textbooks, learning materials, databases are appropriately managed for educational purposes.	Efficient care and maintenance of the learning environment and resources are provided.	The technology used in teaching and learning is suitable for the current era.	Spesificities are organized for students and readily to internet, socialize, exchange ideas, or collaborate.	Computer services and high-speed internet are available.	Average assessment score for learning support resources.	Opportunities are provided for students to submit various types of complaints, such as establishing complaint boxes and organizing meetings to listen to complaints.	Clear applications are given regarding student complaints to ensure students are informed, where ever possible.	Actions are taken to address student complaints.			Students are given the opportunity to express their opinions and provide reasons for filing complaints.	Continuous and up-to-date monitoring of student complaints is conducted.	Average assessment score for the management of student complaints.

Students Satisfaction with Teaching 2022 Semester 2

Faculty/Course	In terms of curriculum implementation and educational management.					In terms of academic advisor system.						Overall average score	Percentage of respondents to the evaluation
	The modernity and diversity of subjects in the curriculum.	Introduction to the registration system and educational management information retrieval.	Teaching and learning management process emphasizing student development and 21st-century learning skills	Various activities to enhance student development both inside and outside the classroom.	Average assessment score for curriculum implementation and educational management.	Channels/convenience for contacting academic advisors.	Students receive guidance on course registration and curriculum planning from their academic advisors. Academic advisors have sufficient time to provide consultation.	Academic advisor Sufficient time for consultation	Academic advisors show interest in and follow up on students' academic progress to help them graduate on time according to the curriculum.	Academic advisors provide additional assistance, share other experiences with students, listen to their feedback, and help solve various problems.	Average assessment score for the academic advisor system.
